EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry Hume on February 25, 2004.

The application has been amended as follows:

Claim 23, line 1, insert the phrase "said silicide substrate comprises".

Claim 23, line 2, replace "said" with "a".

Claim 23, line 2, delete the word "is".

The following is an examiner's statement of reasons for allowance:

Claims 1, 2, 4-8, 10, 15 and 21-27 are allowable over the prior art of record because the prior art of record does not teach forming a first continuous sacrificial layer. . .completely covering the oxide layer and the liner layer; forming a second layer, comprising a refractory material, on the first continuous sacrificial layer. . .so as to cover the first layer and to also substantially fill the opening, and during said forming a second layer, sacrificing at least a portion of the first continuous sacrificial layer, wherein said sacrificing at least a portion of the first continuous sacrificial layer ensures against a deterioration of the silicide substrate underlying both the oxide layer and the liner layer.

The closest prior art to Desai et al. fail to teach depositing the continuous liner layer for sacrificing. Desai et al. teach depositing a silicon layer over the barrier layer

and wetting adhesion layer as shown in Desai et al.'s Figure 2. The claims of Desai et al. require depositing the silicon on a sidewall.

The Examiner further understands that "sacrificing ***at least a portion*** of the first continuous sacrificial layer" to include some or all the sacrificial layer dependent on how much fluorine is consumed by the silicon and the amount of fluorine available for interaction and combination with the sacrificial layer as described on Page 5 lines 5-13 of Applicant's specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
